

COUNTERWEIGHTS FOR THE HISING BRIDGE

Shipment of counterweights from Denmark to Sweden

Project details

Task: Shipment of four heavy counterweights for the Hising Bridge. The transport of the counterweights was a part of a larger shipment of massive pylons for the Hising Bridge. The Tschudi team was responsible for both shipments and coordinated a stop in Lindø to load the counterweights.

Route: From Lindø, Denmark to Gothenburg, Sweden

Cargo: Four counterweights, each weighing 122 mton.
